Hello, Catherine and Kimberly,

OPS has pulled together a draft response to PEER's incoming letters concerning Anvil and Permanone, however, Michal has asked us to hold on sending because we may have more to say in the coming days/couple weeks. Based on yesterday's discussion during the weekly check-in, I didn't catch what the next action may be or when.

Are you able to provide some additional insight regarding Michal's request? As an FYI, I've attached the draft response and incoming letters.

Thank you,

Carissa
